

Curso Estrategias para Aprender Inglés en Línea de Platzi

Class 7

Practice English with AI Tools

Wait a moment, be sure that you have an AI model that supports voice mode for this to work.

Speaking prompts

- One *“Play a friendly interviewer. Ask me 5 questions about my work, one by one. Wait for my answer. Then give me one tip to improve my answer.”*
- Two *“Simulate IELTS Speaking Part 1. After each answer, give one vocabulary upgrade and one grammar fix.”*
- Three *“Give me a 60-second shadowing script at B1 about travel. After I read, test me with 3 follow-up questions.”*

Writing prompts

- One *“I will write a 150-word email about [topic]. Give feedback in 3 bullets: meaning, grammar, tone. Then show a corrected version and 5 gap-fill items based on my errors.”*
- Two *“Give me a paragraph plan (topic sentence + 3 supports) for an opinion paragraph about [topic]. I will write it and you give me one high-impact fix.”*

Reading prompts

- One *“Create a 200-word article at B1 about [topic]. Ask 5 questions: main idea, detail, inference, vocabulary, opinion. List 6 key words with simple definitions.”*
- Two *“Rewrite the article at B2 and highlight 5 higher-level phrases I should learn.”*

Listening prompts

Remember, you will need your AI tool to support a text to voice model for this to work.

- *“Give me a 120-second monologue at B1 about [topic]. Include a short transcript after the audio or text. Ask 5 comprehension questions.”*
- *“Make a 90-second script with natural pauses. Tell me to shadow it twice and then ask me to summarize in 3 sentences.”*

We can also use AI models to **simulate certification exams** using these prompts:

- One *“Simulate IELTS Speaking Parts 1–3. Keep time. After each part, give one strength and one area to improve.”*

- Two “Give me a TOEFL Integrated Writing task: 1 reading, 1 lecture summary, and a 20-minute timer. After I submit, score with a simple rubric.”
- Three “Create a Cambridge B2 First Writing task. Give two options. After I write, mark common B2 errors and suggest one C1 phrase.”
